

# 230MM ANGLE GRINDER

TGA9030

The Tolz TGA9030 is a powerful 2600W heavy-duty angle grinder engineered for demanding cutting and grinding applications. With a large 230mm disc, high torque output, and a safety-focused paddle switch, it delivers reliable performance for industrial and construction environments.

## PRODUCT INFORMATION

### Specifications

Power Input: 2600W  
Disc Diameter: 230mm (9")  
No Load Speed: 6600 RPM  
Spindle Thread: M14  
Switch Type: Paddle Switch  
Weight: 5.4 kg

### Features

**2600W High-Performance Motor:** Provides strong torque for tough cutting and grinding tasks.

**230mm (9") Disc Capacity:** Ideal for deep cutting and large-area grinding applications.

**Paddle Switch Design:** Enhances operator safety with better control during operation.

**Optimized No-Load Speed:** 6,600 RPM for controlled, efficient material removal.

**M14 Spindle Thread:** Compatible with standard 230mm accessories.

**Heavy-Duty Gear Housing:** Built for durability in harsh job-site conditions.

**Ergonomic Grip & Balanced Body:** Improves handling and reduces fatigue.

**Robust Build (5.4 kg):** Ensures stability and consistent performance under load.

### Inclusions

230mm Cutting disc  
Auxiliary Handle  
Wheel Guard  
Spanner
