

12 KG SDS MAX DEMOLITION HAMMER

TDH12

The Tolz TDH12 is a high-performance 1800W SDS Max demolition hammer engineered for heavy-duty breaking applications. Delivering an impressive 23J of impact energy, it provides maximum demolition power with durability and stability, making it ideal for demanding construction and industrial projects.

PRODUCT INFORMATION

Specifications

Power Input: 1800W

Impact Frequency: 1600 IPM

Impact Energy: 23J

Weight: Approx. 12.3Kg

Features

1800W Heavy-Duty Motor: Designed for continuous, high-load demolition work.

23 Joules Impact Energy: Delivers powerful blows for fast concrete and masonry breaking.

Impact Rate 1600 IPM: Optimized for controlled, high-impact performance.

SDS Max Tool Holder: Ensures secure bit locking and efficient power transfer.

12kg Class Machine: Built for serious demolition and structural breaking tasks.

Robust Internal Mechanism: Enhances durability under extreme working conditions.

Ergonomic Dual-Handle Design: Improves control and reduces operator fatigue.

Stable Build (12.3 kg): Provides better balance and performance during heavy breaking.

Inclusions

Grease

Side Handle

SDS Max Bull Point (400mm)
