

# 8MM PADDLE SWITCH DIE GRINDER

## TGD8820P

The Tolz TGD8820P is a powerful and precise 820W die grinder designed for grinding, deburring, and polishing tasks in metalworking and fabrication. With variable speed control and a paddle switch, it offers excellent handling and safety for both heavy-duty and precision applications. Its lightweight 1.4 kg body makes it comfortable for extended use.

## PRODUCT INFORMATION

### Specifications

Power Input: 820W  
Collet Capacity: 8mm  
No Load Speed: 7,000 – 28,000 RPM (Variable Speed)  
Switch Type: Paddle/Dead-man  
Weight: Approx. 1.4 kg

### Features

820W High-Performance Motor: Ideal for demanding metalworking tasks  
Variable Speed Dial: Allows precise speed adjustment for different materials  
Paddle Switch: Provides superior control and enhanced safety  
Compact & Ergonomic Design: Enables easy access to tight areas  
Soft Start: Smooth startup for better control  
Overload Protection: Extends motor lifespan  
Lock-On Function: For continuous operation without user fatigue  
Lightweight (1.4 kg): Reduces strain during prolonged tasks

### Inclusions

6mm Collet Nut  
2 Wrenches
